July 5, 2010

SECOND SUPPLEMENTAL AMENDMENT

Sir:

On November 18th, 2009 a telephonic interview was held between applicant's counsel, Bruce Stuckman, Registration No. 36,693 and Examiner Reuben Brown from the U.S. Patent and Trademark Office. The art cited in the previous rejections was discussed. Agreement was reached that the proposed claims (that are attached) distinguish from server systems that send a set of individual programs on individual frequency channels.

A Notice of Noncompliant Amendment was sent on February 4, 2010 in response to the prior supplemental amendment, indicating an incorrect listing and indication of claims. In a telephonic interview was held between applicant's counsel, Bruce Stuckman, Registration No. 36,693 and Examiner Reuben Brown from the U.S. Patent and Trademark Office clarified that the indication of pending claims in the Remarks Section did not match the claims as listed. Applicants have corrected the Remarks Section to correctly indicate that claims 12 and 53 have been cancelled.

Amendment to the Claims begins on page **2** of this paper.

Remarks begin on page **9** of this paper.
